GRAYLING SCHOOL

## School Opens With Record Attendance

The Grayling schools opened on schedule at 1:00 p. m. Tuesday, September 3rd. The staff was on hand for an eight o'clock breakfast after which detailed plans for both buildings were discussed.

The main problem of this year's opening probably has been the adjustment of the kindergarten. At present more boys and girls are enrolled in that grade than one teacher can efficiently care for. Grayling has an excellent kindergarten teacher and Miss Tapio is doing her very best to accommodate every last student. By Friday it may be possible to state definitely just how many can be cared for. Those who will be five years old by October 1st can be enrolled but just how many more is a problem that must be worked out. Parents will be notified by mail or phone just as soon as possible.

The North Side school's record enrollment for the first day is 275 students in the grades, and 301 in High school. For the South side, 61 pupils. Total enrollment: 637. Eighteen of this total were new students who have not been enrolled in our schools before.

Mrs. Gorman reports that the health of the grade pupils is satisfactory and only three pupils are absent from whooping cough, 1 from the 2nd grade, and two from the kindergarten. She hopes the school will receive the cooperation of the parents in guarding the health of the pupils and preventing contagion. In this way we may prevent any epidemic becoming prevalent in our community.

## C. of C. Meeting

The annual meeting of the Grayling Chamber of Commerce will be held Tuesday evening, Sept. 10, at the Court house beginning at 7:30 o'clock. All members please be present.

Harley Russell, Sec'y.

## Kiwanis Club Notes

O. P. Schumann was in charge of the program Wednesday and presented, as the guest speaker, Capt. L. B. Kiblinger, commander of CCC Camp Hartwick Pines. Capt. Kiblinger came to Grayling only recently and succeeded Capt. McDonald who was in temporary command following Capt. Maxwell's call to the Marines.

Capt. Kiblinger explained how the members of the CCC camps were selected, their remunerations and the difference between the youth enrollee and those of the veteran camps and much other interesting camp facts. While much of this was familiar to most of the members of the club, still Capt. Kiblinger presented it in a manner that seemed different and was very interesting.

Among the things mentioned was that Crawford county had within its borders four CCC camps which was more than any other county in the state and he believed, in the 6th corps area. Capt. Moffet, educational advisor of the Pines camp also was a guest at the luncheon.

President Farnham Matson, Secretary Norman Butler, District lieutenant governor Emil Giegling and Mayor George Burke left today to attend the annual district Kiwanis convention being held in Port Huron the last part of the week.

## Spinster Dinner

The Misses Georgiana Olson and Elizabeth Matson were hostesses at the spinster dinner given in honor of Miss Jayne Keyport.

The affair was given at Zauel's Tuesday evening. Following the dinner cards were enjoyed. Guests included, besides the guest of honor, Mrs. Harold MacNeven, Mrs. Fritz Heath, Mrs. Alvin Zauel, Mrs. Emil Niederer, Mrs. Nels Olson, Miss Veronica Lovely, and Mrs. Benjamin Jerome, Pontiac.

## Two Auto Accidents Reported in County

There were two auto accidents reported in this county over the Labor Day week end. There were no fatalities however, but automobiles that figured in the accidents were badly damaged.

A head-on collision occurred on the stretch of highway between the two curves or opposite the James McDonnell home Sunday noon. Victor Magnotte of Hamtramck was driving south on US 27 and Mr. and Mrs. William Collins and Mr. and Mrs. Frank Stocks of Crosswell, Mich., were driving north, when the collision occurred. Mr. Collins was the only one injured however, when he received four fractured ribs.

Magnotte is to be taken on a reckless driving charge, it having been reported that he drove directly in front of the Collins automobile.

Donald Deckrow, age 18, son of Oscar Deckrow of Mt. Morris, lies in Mercy Hospital in a serious condition, suffering with a skull fracture and bad lacerations on his head and other injuries as the result of an auto accident. He was found Monday night at about one o'clock some 50 feet from the highway, at the intersection of US-27 and M-93. An automobile belonging to Cecil Parker, who is employed as baker at Grayling Bakery, and which had been stolen about an hour before had been wrecked and was lying nearby. Young Deckrow is an enrollee at Camp Mackinac and had been in Grayling over the week end visiting relatives and had been looking for a way to get back to camp.

However he has been in an unconscious condition since the accident happened so no information is available as to how the accident happened, or who stole the automobile. Mr. Deckrow, father of the young man, who arrived Tuesday, said that his son did not know how to drive a car, so how the accident happened is still a mystery.

## Old Timers Hold Picnic

The annual Farmers Picnic was held Sunday at the Beaver Creek town hall. Although the weather was not favorable for outdoor, picnicking, there was a good turnout.

The business meeting was called to order at 2 p. m. with the minutes of 1939 being read and approved.

The following officers were elected for the ensuing year: John LaMotte, president; Anthony J. Nelson, vice president; Idessa Beck, secretary; Theodore Leslie, treasurer; Donald Leslie, chairman of the sports committee; Russell Beck, chairman of the dance committee. There being no further business to discuss, the meeting was adjourned.

Then everyone went to the ball diamond where the "Jackpines" won over the "Hardwoods", the score being 7 to 3. This was a very good game, in fact the closest game ever held at one of these picnics. After the ball game was over the crowd went back to the field where the races were held. The first race was for boys under 12 years, the first prize going to George Johnston; second prize Charles Decker. The next race was a girl's race under 12 years, the first prize going to Shirley Lorimer; second prize Goldie Beck.

Boys race, 12 to 16 years—1st prize, Eugene Corwin; second prize, Gerald Worden.

Girl's race, 12 to 16 years—1st prize, Lenett Nash; second prize, Marcella Wolf.

Men's race—1st prize, Roy Leslie; 2nd prize, Alfred Brown.

Ladies race—1st prize, Nettie Nash; 2nd prize, Millie Root.

Then for the real fun—"The husband calling contest", the first prize going to Mrs. Minnie Fales; second, Mrs. Oscar Seiderman.

Next was the Slipper Kicking contest. First prize, Mrs. Frank Galloway; second, Mrs. Oscar Seiderman.

There was quite a squabble for the peanut race, first prize going to Velma Sewall; second, Goldie Beck.

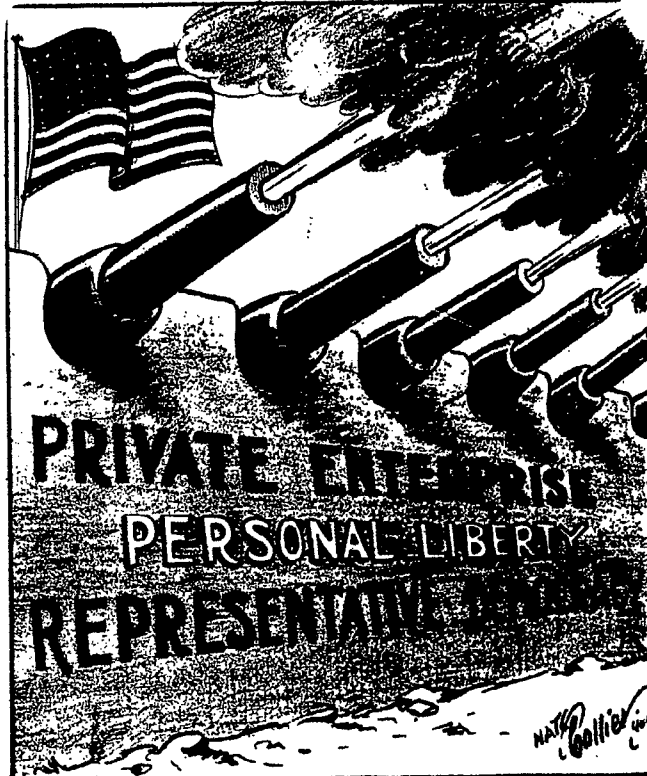

Last, but not least, the huckleberry pie eating contest. First prize going to Earl Cooper; second, Keith Raymond.

As the weatherman cut up some of his capers the tug-of-war, which is always exciting, had to be omitted.

The afternoon being fairly over, some of the men pitched horseshoes, while others sought a bite to eat.

The old time dancing began at 7 p. m., the music being furnished by Ed Clark, Melvin Enyart, Ruby Anna, Julius Paul, and George Anna. The dancing continued until the wee hours of the morning and all reported a good time.

## THE RAMPARTS WE WATCH

## Motorcycles Make Annual Grayling Trek

Some fifty men participated in the finals of the National Motorcycle Endurance race from Lansing to Grayling and return during the week end. Winners of races in several states took part in these finals.

The motorcyclists made the trip of some 250 miles through swamps and roads that are scarcely traveled, and they began arriving about 2:00 Sunday afternoon and kept coming in until 9:00 o'clock. Their destination was CCC Camp AuSable, and at this beautiful camp the visitors were made very welcome. That evening there were 164 guests for dinner at the camp, for besides the racers there were their wives, or sweethearts or parents who came to be here when they arrived. There were 144 stayed overnight and were at the camp table for breakfast.

This is an annual trek for motorcyclists and each year there are many more added to the list.

## County Truck Drivers Make Fine Record

The twenty truck drivers employed by the County Road commission went thru the past year without a single accident, and each was awarded with a medal and certificate. A 100% record for safe driving for a group such as this is considered very unusual and rare.

Last week there was a meeting of the truck drivers and others, totaling about 50, and listened to talks by the members of the Road commission and others, complimenting the drivers for operating with safety and courtesy and the promoting of good will. This is the only county in Michigan reporting such an enviable record, according to Mr. Roy H. Olson, of Detroit, a safety engineer.

Following are the names of those drivers receiving medals and certificates:

Truck operators—Russell Val-lad, Harry McEvers, Clarence VanAmberg, Herbert Ferguson, Nels Johnson, Devote Wolcott, Al Stephens, Leo Morency, Henry Smith, Albert Schreiber, Seth Chappel, Eugene King, Stanley Lazarowicz.

Tractor operators—E. Bissonette, Oscar Borchers, Oscar Smith, Dennis Lovely.

Shovel operator—York Edmond.

Grader operators—E. Chalker, Albert Charron.

## Observe Silver Wedding Anniversary

Mr. and Mrs. William J. Heric observed their silver wedding anniversary Saturday. The couple planned no celebration however, they spending the day quietly at their home. Mrs. Heric was formerly Altha Nielsen and the couple were married at 7:00 o'clock in the morning at a nuptial mass at St. Mary's church on August 31st, 1915. Lila Cassidy, now Sister M. Pancretia and her brother the late Joseph Cassidy, were the attendants.

Mr. and Mrs. Heric have one daughter Patricia Hope, who is the pride of their heart and home. They have resided in Grayling for a long number of years, and have many friends who extend best wishes for many more happy years together.

## Ladies Golf Club

The Ladies Auxiliary of the Golf club enjoyed pot-luck luncheon and golf game Wednesday afternoon. Mrs. Esbern Olson, president of the Auxiliary, presided at the annual business meeting. Election of officers for the ensuing year was held with the following result: Pres., Mrs. Roy Milnes; vice pres., Mrs. Frank Bond; Sec., Miss Mary Jane Joseph; treas., Mrs. Esbern Hanson.

Miss Mary Jane Joseph, who won the women's championship cup at the local course last year, surrendered her honors to Miss Jayne Keyport who won the cup for 1940. Mrs. E. J. Olson was runner-up.

A lively interest is being shown this year by the ladies. A handicap tournament is scheduled to start next Sunday. The consolation tournament is still in progress. The winner will be announced next week.

Members of the Roscommon Golf Club auxiliary will be guests of the Grayling ladies Wednesday, September 11th.

Sunday, September 22nd there will be a pot-luck dinner at 5:30. Trophies for the men and women will be presented. A two-ball foursome and bridge will be played in the afternoon.

## Townsend Club Held Picnic at City Park

The local Townsend club enjoyed a basket picnic at the City park on August 28th. Mr. and Mrs. Chas. Kinnear, representative of the Department of Visual Education Townsend National Recovery Plan, Inc., were here and Mr. Kinnear took a picture of the group which will be published in the Townsend National Weekly, a paper published by the Townsend organization at Chicago headquarters.

We had a delicious lunch and everyone enjoyed it in spite of the gray skies. Mr. Brinker, our republican candidate for Congress of the 10th Congressional District was also at the picnic and gave a very enlightening talk on what our plan will mean for our country.

Mr. Kinnear showed us the Visual Education pictures, namely, "I am a machine," "Hunting wild game in Africa," "Little boy blue," "Romeo and Juliet," and "The story of our flag," and last but not least the picture of Dr. Townsend and how the plan was originated.

Club members, please remember the date of our club meeting is each Monday evening, at 704 Chestnut St., between Lake and Vine streets.

I fully believe if the Townsend plan was heard and studied it would prove its merits and be considered a plan worth while.

—Contributed.

## Dark Subject

Simple, non-technical reports of all city expenditures are advocated by the National Consumers Tax commission, so citizens will know where their tax dollar is going and how much they are getting in return for their tax payments.

## Grayling Merchants Win One, Lose Two Over Holidays

The Grayling baseball team won one game and lost two over the week end. Last Sunday they journeyed to Alpena for a Northern Michigan League game with the League leaders and were held to four hits, losing 11-2. Elmer Kellogg and Edwin Chalker hurled the game for the locals, with Kellogg being charged with the loss. John Deckrow with a double and George Hanson, Elmer Kellogg and Dewey Coutts with singles collected all of Grayling's hits.

Labor Day, at the local park, the Merchants played a double-header with the Kalkaska Merchants and divided the games. Kalkaska won the first game and Grayling the nightcap, which only went five innings.

In the first tilt Don Smock did the pitching for Grayling and gave up fourteen hits while Grayling collected sixteen off Chalker Stuck and left-handed DeVerne but Grayling's six errors was the difference in scoring with Kalkaska coming out on top 12-8.

In the last half of the twin bill Ken Gothro pitched two-hit ball, walked three and struck out two to give the locals an even split for the day.

In the first game Edwin Chalker with three doubles, Johnny Kellogg and Dewey Coutts with three singles apiece led the Merchants' attack and Johnny Kellogg with a triple was Grayling's leading hitter in the nightcap.

Grayling scored all six runs in the second inning on five hits, a base on balls and two errors for the 6-1 victory.

### Political Editorials

FRANK McKAY'S Grand Rapids Times is supporting Thomas Read for governor. Most everyone on the inside seems to believe that McKay has been Tom's boss during the past two years. It looks as tho our anti-boss voters should support Dickinson as the most effective means of beating McKay control of state affairs.

WHILE Governor Dickinson's nomination for governor is "in the bag," apparently, we are going to sacrifice our vote by voting for O. L. Smith for governor. None of the candidates can win from Dickinson. Smith doesn't make much noise but it is conceded that wherever he is known he is appreciated for his wisdom, for his fairness and executive ability. This middle-age Detroit attorney is quite the choice of Michigan's young voters. We're sorry he hasn't a better chance of being elected.

ROY O. WOODRUFF has served the tenth district of Michigan in Congress for so many years that he seems almost an indispensable part of it. He has represented Michigan faithfully and well and we believe has the confidence of the people of the district. He is being opposed on the Republican ticket by Ira Brinker, who is an avowed candidate for the Towns-end plan supporters.

ALONG with O. L. Smith for governor, we would select Elton R. Eaton for lieutenant governor. The latter is not the choice of the political bosses of Michigan. Gov. Groesbeck wouldn't have selected Eaton for his executive secretary if he hadn't known and appreciated his ability. Eaton certainly has everything that is needed to fill the office of lieutenant governor or governor and we may be assured that if he is elected that this will be a good start toward breaking up the powerful bossism that is so prevalent in Michigan. While we haven't any hope of electing O. L. Smith, we do believe the election of Elton Eaton for lieutenant governor is not only possible but probable. At least we will not have to apologize for voting for either of both of these men.

EVER SINCE Senator Ben Carpenter gave up the state senatorship from this (the 28th) district, we have been happy to support Miles M. Callaghan, Carpenter's successor and present incumbent. We had strong faith in Callaghan but we are sorry to say that we feel that he has failed us. This feeling comes from no personal incident. Former Senator Ben Carpenter always held the respect of the people while he served the 28th district in the senate. This may possibly, and rightly so, be considered a boost for Ben Carpenter, but our real motive for this editorial is to get able men such as Ben Carpenter into our state legislature. Let's send Ben Carpenter back to the State Senate from this district.

WILLIAM GREEN of Hillman is being opposed in the campaign for the office of representative in the state legislature from the Presque Isle district by Wayne Stark of Mio. While there has been some criticism of Mr. Green for some of the things he has done and for some of the things he hasn't done, still he is an experienced legislator and holds several important committee appointments. Mr. Stark is a fine young man but, as far as we have been able to learn, has had no experience that would give him a background qualifying him for such an important office. It takes a pretty good knowledge of Michigan affairs to make one more than just a member of the legislature of the state. It is pretty hard to defeat an experienced man in a campaign for such an important office.

THERE are no contests in the primary election in the county

except for the office of probate judge. We look for a legislative enactment, some time, requiring that office be filled by an attorney, if at all possible. Few people enter probate court represented by a competent attorney and must depend upon the court to advise them. Matters of vital importance sometimes have to be decided in this court. If there is a trained attorney at its head that should inspire confidence and safety. However the law does not require that the judge must be an attorney so the office is open to anyone who may win it. The candidates' names will appear on a separate non-partisan ballot and are as follows: Attorney Charles E. Moore, the present incumbent; Joe Denno, Clayton McDonnell and Leo Schram.

IT WOULD suit us fine to have the Straits bridge called "Prentiss Brown Bridge." He did much to help it possible. Congressman Fred Bradley of Rogers City deserves the gratitude of the people of Michigan for his efforts on this project.

Primary election Tuesday, September 10th.

### Home Projects Completed

If you're a keen observer you may have noticed how busy Grayling girls have been this summer with cooking, baking, sewing, gardening, redecorating, housekeeping, or other home-making activities. You may have overheard them discussing cake successes or failures; the house-cleaning ahead of them; or the dinner they must hurry home to prepare. But don't be too alarmed. They may be doing all this on their own hooks; they may be helping their mothers, but a great many have been completing summer projects.

Every girl who takes Home Economics in Grayling High school is required to carry two summer projects. She spends from thirty to one-hundred hours on each project and receives ¼ credit for this work. These may be in any field connected with the home. If you are in any doubt about the breadth of the field of home projects, these are some of the projects Grayling girls are carrying: baking, quantity cooking, family meals, canning, redecorating a room, personal improvement, personal budget, gardening, knitting, housekeeping, preparing a college wardrobe, child care, clothing constructing, complete charge of the house, entertaining.

Each girl plans her own projects and carries them to completion herself, with the supervision of the Home Economics teacher, Miss McKibbin. In this way every girl has an opportunity to apply her school homemaking experience and broaden it by trying it out in her own home situation. They sometimes complain; but the projects can be as interesting as the girl wants to make them. The report booklets, many of them illustrated, that are brought to school in the fall, are sufficient proof that most of the projects are interesting and worthwhile.

### Vet's Camp Veritable Flower Garden

Although the flowers at Camp AuSable, the Veterans' CCC camp east of Grayling, have passed their prime, it is believed that it will be worth while for anyone in the vicinity of the camp to stop. A cordial invitation has been issued to anyone to inspect the flowers and the whole camp as well.

The veterans at the camp have conducted a few experiments which may be of interest to visitors. There are dahlias seven feet tall, grown from seed planted in the camp greenhouse in February. There are also castor beans six feet tall, and golden cleome or spiderflower approaching the six foot mark.

They have perhaps twenty varieties of petunias, double and single, including some California giants with blossoms five inches in diameter. Two varieties of scarlet salvia and one of blue salvia lend more brilliant colors to the beds. There are several varieties of scabiosa, including the new Blue Moon, and asters in many colors.

Some of the newer varieties of marigold have been planted, some blue glia for the bees, and several beads are bordered with alyssum and ageratum. There are several beds of zinnias with specimens of the newest varieties, including the one developed by Burpee with clove-like. Snapdragons have passed their prime. There are a few morning glories, including the improved Heavenly Blue, stocks, phlox, nasturtiums, blue-eyed daisies, coleus, "glads," and many others, which will be in bloom until touched by a killing frost.

Any of the camp personnel will be glad to show visitors through the camp.

To the voters,

Tenth Congressional District:

Due to grave world conditions and domestic problems, and particularly in view of the vital legislation under consideration, Congress should remain in session indefinitely.

My obligations and responsibilities to the country and our district, especially during these critical times, make it imperative I remain on the job. You have a right to expect this of your Representative in Congress.

I shall deeply appreciate your active interest and support in the Republican Primaries, September 10th.

Sincerely yours,

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

Thursday, September 6, 1917

The long proposed and much discussed new Methodist Episcopal church edifice is now possible. Owing to the splendid generosity of Mr. Nels Mickelson, one of Grayling's leading citizens, the hope and dream of many Christian souls is at last realized and interpreted by the following fact. A contract has been made with Mr. Fred J. Bremer of Hemlock, Mich., to carry out plans and erect a new brick church edifice on the old church site.

The Red Cross benefit entertainment gotten up by some of our most active members, and given at the Temple theatre Friday evening was well attended. There was vocal and instrumental music, pianologues, dancing, and all were high class. The program was opened with a solo by Mrs. Carl Mickelson, and followed by a pianologue by Mrs. Herbert Wolf. Marjorie Wolf of Portage Lake and Marjorie Livingston of St. Louis, Mo., very gracefully gave a dancing number. Many other very exceedingly clever numbers were given, and the program was voted a huge success.

L. C. Bundgaard has resigned as physical director of our schools and accepted a similar position with the schools of Greenfield, Ohio.

A son was born to Mr. and Mrs. Arthur L. Coutts Thursday of last week, but passed away the same day.

Miss Mabel Nelson has accepted a position as bookkeeper at a paper mill in Capac, Michigan.

Miss Mabel Dawson of Detroit was the guest of her sister, Mrs. Hattie Colten and brother, Earl Dawson, over Sunday.

Mrs. William Heric left Tuesday to visit relatives and friends in Bay City and Flint. She expects to remain a month.

Mrs. Elmer Gamble and children of Jackson, and Mrs. Vernon Cantley of Flint were called here the latter part of the week by the precarious condition of their father, Thomas Reagan, who has been ailing for some time.

E. B. Thayer of Columbus, Montana, a former Grayling boy and a graduate of Grayling school in 1890, was a pleasant caller in Grayling Thursday and Friday of last week.

Friends of Mose LaSprance of Detroit, and Miss Alveretta Irving of Crosswell, will be pleased to learn that they were united in marriage last week. Mr. LaSprance for many years lived in Grayling and at present is holding a responsible position with the Ford Motor company. Mrs. LaSprance was teacher of the fourth grade in Grayling for several years, and was the coun-

ty commissioner of schools.

Gerald Powell and bride arrived here Monday from Detroit, and at once went to the summer home of Mr. Powell's parents, Mr. and Mrs. W. Powell, at Portage Lake, to spend their honeymoon, as they were married the day previous, September 2, in Detroit.

Miss Rosanna Sachs, daughter of Mr. and Mrs. F. A. Eckenfels, and Mr. Earl Case, son of Capt. and Mrs. Willard Case of Portage Lake, were quietly united in marriage by Rev. Fr. J. J. Riess Wednesday evening at the parsonage. The young couple left on the midnight train on a short honeymoon trip to Detroit.

Jacob G. Brown of Detroit was accidentally drowned in the AuSable river Wednesday, about three miles north of Oscoda. In company with his brother-in-law he was making a canoe trip from Grayling to AuSable when the canoe capsized.

Mrs. Sarah Mickelson and little son Frederick arrived from Bay City Tuesday. As it was Frederick's birthday Grandpa Mickelson planned a family party to celebrate the occasion.

George Comer, a former well known business man and resident of Grayling, was in the city Sunday visiting his son Clayton, who is with the Cavalry troops at Camp Ferris. Mr. Comer was a guest at the Robert Reagan home.

School opened Tuesday, with a full corps of teachers present, with exception of the physical training teacher. Supt. Otterbein has been busy getting acquainted with his new duties. The total enrollment for the year is 579, including the South side school.

The first to be ordered into service in the national army are two of Grayling's well known young men, Arthur McIntyre and Ransom Burgess. They are ordered to report at Camp Custer, Battle Creek, Michigan September 6 (today). Mayor T. W. Hanson invited these boys together with the members of the village council and a few other business men, to his Portage Lake cottage for a luncheon before they leave. Mr. McIntyre and Mr. Burgess were each presented with \$20.00 gold pieces, also each was given a personal check by R. Hanson.

Joseph Bracken is suffering from a painful accident, that occurred this morning while he was at work in the blacksmithing department of the DuPont Co. A piece of steel fell striking him above the left eye and cutting a deep gash.

Bingo! The electric lights are on again. The city has been in darkness since July 15, while the power plant was being put in better condition.

## Straits Bridge Seen to Boost Tourist Trade

Tourist trade in the Upper Peninsula of Michigan would be greatly stimulated by the construction of the proposed Mackinac Straits bridge, by increasing accessibility to the scenic and vacation areas of the peninsula, according to James H. Cissel, professor of structural engineering at the University of Michigan.

Time spent in crossing the straits would be reduced from the present ferry time of an hour and a half to twenty minutes needed to drive across the bridge, Professor Cissel stated in an interview.

Tourist traffic has reached sufficient volume, Professor Cissel believes, to warrant construction of the 26-million dollar bridge on a self-liquidating bond basis.

When built, the bridge would experience a high initial volume of traffic, predicted Professor Cissel, since the bridge would include the longest suspension span in the world. Following this spurt, he foresees a slump for a few years, during which the bridge might even operate at a loss.

Soon, however, Professor Cissel predicts, the traffic volume would build up steadily to the maximum limit and the people of Michigan and bordering states become aware of the increased accessibility of the upper peninsula.

Feasibility of the bridge from the construction standpoint has long been accepted by Professor Cissel, who was formerly secretary and engineering consultant to the Straits Bridge Authority, and by engineers engaged by the authority to report on the project.

## SCHOOL TREASURERS MUST FILE BONDS

The treasurer of a primary school district who has been elected or appointed to office since September 29, 1939, is required to file a bond within 30 days after his election or appointment with the county commissioner of schools according to Act 90 of the Public Acts of 1939.

Treasurers who were holding office prior to September 29, 1939 and are still holding office are required to file their bonds with the school district director.

The county commissioner of schools must furnish the Department of Public Instruction a list of the school districts in which the treasurer has filed his bond and the place where the bond is filed.

No primary funds or other state moneys can be sent to any district until the treasurer has filed his bond.

## THE HEAD OF UNCLE SAM'S MILITARY INTELLIGENCE

He could tell plenty about the military secrets of all nations. His name is Brigadier General Sherman Miles, and his job is being the eyes and ears of the Army. Joseph Harrington tells the story of the man who is behind the men who are behind the Nation's guns. Read this article in This Week, The Detroit News Sunday Magazine.

## Washington Merry-Go-Round

Washington, D. C.

**BRITISH BOMBERS**  
The long-discussed transport of American-made bombers to England by flying them across the Atlantic finally will get under way in a couple of weeks.

The exact date, route and number of ships is a secret. But the planes will be two-motor Lockheed's, known in England as Hudson middle-weight bombers, and they will depart from the big airport at Botwood, Newfoundland, which was enlarged expressly for this purpose.

Also, the first flights will be made by British crews who already are in Canada. These men are crack transport pilots and navigators trained in celestial navigation. American flyers, accustomed to piloting on radio beams, will not be used until later, possibly not before spring. They will have to undergo training on the route.

England is seriously deficient in long-range bombers, as it has had to concentrate wholly on fighting planes, pursuits, interceptors and divers, in order to keep control of the air over its islands. This lack of powerful offensive planes has handicapped Britain both in smashing at vital German areas and in crippling Italy, the weak sister of the Axis. One factor aiding the British is the lengthening of the night. This made possible the recent raids on northern Italy's industrial centers, and as the nights grow still longer these attacks will be increased.

## YOUTH TRAINING

With the conscription bill undergoing heavy attack on Capitol Hill, the President himself is under fire on another phase of national defense.

In this case the criticism comes from his own advisers, who demand that he act. They want him to put through the non-combat phase of defense which he outlined last May. The program, as described by Roosevelt himself, consists of two parts, one devoted to training mechanics, cooks, and other non-combatants; the second to training fighting men for planes, tanks and guns.

To date all efforts have been concentrated on the second part of the program. Nothing tangible has yet been done about the first, the non-combatant part.

The U. S. office of education, CCC and National Youth administration have prepared complete blueprints for training hundreds of thousands of youths in the many crafts needed by a modern army. The three agencies are ready to swing into action at once on these programs.

All they need is the money. But although members of congress repeatedly have urged Roosevelt to get busy, nothing has happened. In conferences he has readily agreed to the necessity for this training, but beyond that—zero.

Insiders blame the deadlock on two men, Harold D. Smith, penny-pinching budget director, and Sidney Hillman, labor member of the national defense commission.

Roosevelt instructed Smith to prepare budget estimates and Hillman to submit plans. But neither has complied. Smith, whose functions are wholly administrative, has raised policy objections that are none of his affair; while Hillman, timid about possible A. F. of L. and C. I. O. protests, has backed and filled.

Congressional leaders, under fire over the conscription bill, are sore at the delay on the non-combat training plan. They feel that if it had been submitted simultaneously it would have considerably eased the way for the military program.

Note—CCC, NYA, and Education office chiefs estimate the cost of the non-combat program at around \$500,000,000. This would train 250,000 youths in the CCC, 300,000 in the NYA, and 225,000 in vocational schools supervised by the office of education, during an entire year.

## FIRE CONE

Sen. Charles McNary's plane trip to Oregon, for his vice presidential acceptance ceremonies, will be the first time he has traveled by air. Also it will be the first time in nearly a year that he has visited his beloved ancestral home.

Located a few miles from Salem, on the Mission Bottom road, the McNary farm was homesteaded by his pioneering New England grandfather, James McNary, 95 years ago. At that time it was a dense primeval forest and many of the giant old trees still remain.

## WILLKIE BITS

Two outstanding oddities about Wendell Willkie are that he doesn't drive a car, does not own a car, and doesn't carry a watch. Everybody knows he went to Indiana university; few know he also attended Oberlin college in Ohio (1918).

He still thinks the Democrat platform of 1932, which he supported, is one of the best ever written.

Salary which Russell Davenport of Fortune sacrificed to join Willkie was \$75,000.

Non-partisan News Letter  
Michigan Press Association  
By GENE ALLEMAN

Lansing Because the United States is moving steadily toward a showdown in its policy of "aid England but keep out of war," Michigan is due for more "Fifth Column" troubles.

According to Lieut. Harold Mulbar, who heads the state's own "Scotland Yards" state police division for anti-subversive duty, Michigan has more activity of this kind than any other state with the single exception of New York.

Just because the idea seems a bit Hollywood-like and you would prefer to think that "it couldn't happen here," don't discount the possibilities that spies of foreign countries are busy at work right in your own home county. If we didn't have the solemn word of the deputy chief of state police detectives for we might be inclined to be skeptical too.

Where are these enemies of American freedom? How do they operate? What are they attempting to accomplish?

History is in the writing. Here are some hand-writings today on your wall.

#### Propaganda

Effective use of propaganda is a leading weapon of the Fifth Columnist.

Ever since Adolf Hitler wrote in "Mein Kampf" that Allied propaganda in the first World War caused the Fatherland to collapse, it has been certain that propaganda would be an integral part of the German war machine.

Dr. Goebbels became Hitler's right-hand man as minister of propaganda and public enlightenment. That was in 1933. The British waited until after Munich; the French until after World War II had begun.

Foreign propaganda has three fronts: Maintaining morale at home, undermining morale of the enemy and its allies, and maintaining or winning friendship of neutral nations.

Two of the propaganda fronts extend to Michigan, and it is those that we are concerned with. "Call to Arms"

One subversive propagandist in the Fifth Column category is the person who seeks to over-

throw the American form of government.

We quote Lieut. Mulbar: "Within the borders of our state there are men and women spreading propaganda against our government, persons trained in the art of espionage, sabotage, riot and military tactics who are impatiently awaiting the call to bear arms against the United States in a bloody revolution."

In other words—a communist or a fascist—if you please.

It is common knowledge at state police headquarters that Communists played an important part in the 1937 sit down strikes by organized labor.

Furthermore, these anti-American forces penetrate into recognized institutions such as colleges, churches and public schools to further a spread of their ideologies. Quoting from "War Propaganda and the United States" by Harold Lavine and James Wechsler: "The propagandist has allies: the disgruntled, the discontented. In the democracies, they may be the Communists, the Left-wing Socialists, the pacifists, the Fascists, the defeatists."

These groups provide a fertile soil for the seeds of foreign espionage.

#### Crippling Defense

One way to hinder American military defense preparations is to spread the doctrine of pacifism.

Lieut. Mulbar charges that Communists, engaged in this activity, are utilizing churches and schools to further their objectives. He backs up his statement by displaying a number of pieces of printed literature which he says were distributed by Communists among school students in the Michigan city this year.

Dr. Alexander Ruthven, president of the University of Michigan, became so disturbed over these disclosures and others that he declared Communist students should be denied admission at Ann Arbor this fall.

"Facts in Review", the official German propaganda organ in the United States, has a reported mailing list up into the hundreds of thousands. Hundreds of professional people including college faculty members are on the list in Michigan.

Following a pattern set in the last World War, all out-in-the-people propaganda is aimed at upper class America. In April, 1917, when Congress declared war upon Germany and assured the sending of American troops overseas to Europe, the masses were quite indifferent to the Allied cause. Official propagandists center attention on the public leaders, while their hidden agents spread lies among the workers.

This combination is at work today in Michigan.

#### War Talk Rises

With the rise of war talk by interventionists who believe sincerely that the United States is headed for a head-on collision with Fascism, Michigan is bound to experience an intensification of Fifth Column activity.

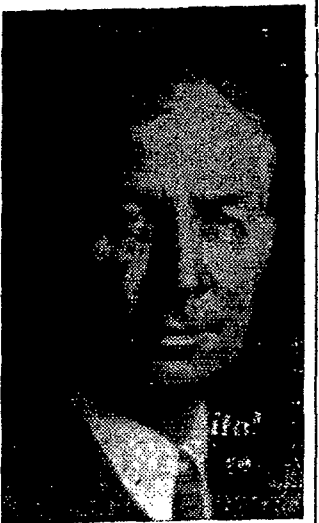

The centering of huge armament contracts in this state will contribute much to make Michigan a battleground for espionage, in the judgment of state police officials.

Previous to the fall of France, Lieut. Franklin wrote in Washington: "Regardless of which party is in the saddle, it is the view of American military experts that this country will enter the war within the year."

The United States News also observed: "Chance of Allied States' staying out of Europe's war is reduced. Nothing imminent; not this year; but Hitler is adding group after group in U.S. who will have strong personal and sentimental stake in Allied victory. Result: every increase in prospect of British-French defeat adds to pressure for action."

This sentimental interest in the outcome of England's present dog-die fight is increased in Mich-

#### CAR SICKNESS CAUSED BY EYE FATIGUE

Recent authorities of nausea resulting from prolonged automobile riding have led some authorities to believe that frequently such car-sickness results from ocular fatigue, reports the Better Vision Institute.

When an automobile is moving rapidly, objects flit in and out of one's line of vision. If the eye mechanism is in balance and functions easily, the images formed on each retina are transformed simultaneously to the brain, where they fuse properly. In the case of muscular or other unbalance in the seeing mechanism, considerable strain is placed upon the eyes to bring about the adjustment needed to obtain a simultaneous recording in the brain of the images supplied by both eyes. It is believed, says the Institute, that the efforts to make these adjustments cause fatigue that often results in nausea.

igan by our nearness to Canada and the residence here of many former Canadians. Counter to this pro-British wave are the Volksbunds which are numerous in our state and which hold frequent meetings—even rifle practice!—as their contribution to the Nazi cause.

#### Sabotage

Scores of Michigan plants have received important orders for armament supplies from British and American governments.

As long as the tempo of war action continues to mount, state police detectives are apprehensive that espionage agents will attempt sabotage of production.

"Thanks to the foresight of Commissioner Oscar P. Olander," noted Lieut. Mulbar, "the Michigan state police through the limited facilities of its 41 posts is keeping a watchful eye, as much as possible, on the activities of the fifth column throughout the state."

It is emphasized that the state police are co-operating with the Federal Bureau of Investigation, the G-Men unit.

They are ready for any emergency.

#### TRENCH MOUTH

An acute, ulcerative infection of the mouth and throat, known as Vincent's angina for the physician who first described it in 1896 and which became so common among the military forces of the World War as to win the label "trench mouth", seems to be due to vitamin deficiency. That, at least, is the conclusion of several British physicians who report remarkable results from the administration of nicotinic acid, one of the components of the Vitamin B complex.

Their work, if confirmed by subsequent research, suggests the possibility of preventing this rather wide-spread infection by adhering to a diet rich in Vitamin B. Two organisms are found in the mouths of those suffering from this condition. The gums are usually red, sore and bleed easily but the tongue, throat or tonsils may also be affected. Surface tissue dies, causing bad breath, the lymph nodes become enlarged and fever appears. There is a possibility that, unless energetic measures are taken in severe cases, the culpable organisms may enter the lungs, causing pneumonia.

The British investigators, like others, had noted that trench mouth is frequently, if not always, found associated with pellagra which is known to be caused by deficiency of Vitamin B in the diet. Withholding this vitamin and, particularly, nicotinic acid from the diet of monkeys resulted in the production of experimental trench mouth.

The next step was to ascertain the effect of giving large doses of nicotinic acid to humans suffering from this condition. In four cases under study, the disease disappeared quickly—whether because the acid actually killed the organisms or whether it so far improved the general health as to inhibit their growth.

It now seems quite evident that an adequate daily intake of food known to contain nicotinic acid will prevent trench mouth. Among the excellent source of this substance there may be listed: liver, lean meat, salmon, whole wheat and yeast. Nearly as rich are such foods as butter-milk, collards, eggs, haddock, green peas, tomatoes and turnip greens.

#### City-County Co-operation

Small cities can save by co-operating with their county government in establishing a central purchasing office to obtain quantity prices for municipal supplies, according to the National Consumers Tax commission whose 5,000 units seek municipal economy.

## CHILDREN ... LOOKED IN THE UPSTAIRS WINDOWS ...

... of this house after a Michigan windstorm, last year, blew the top story to the ground! For \$9.00 a year, the cost of a \$6,000.00 policy with the State Mutual Cyclone Insurance Company, the owner would have been relieved of losses totaling \$5,600.00.

You can't afford to be unprotected when you can buy \$1,000.00 worth of windstorm insurance for one year for \$1.50 ... from the reliable 43 year old State Mutual Cyclone Insurance Company.

State Mutual's annual claim payments, for 43 years, prove that destructive wind storms occur in Michigan year after year—as surely in 1940 as in 1939. Don't wait 'til it's too late! Insure now!

Are you prepared, financially, to absorb the loss that will be yours if a windstorm destroys your house or barn or both? Learn the facts about Michigan windstorms. Write today for your free copy of "GAMBLERS BEWARE!" Address me personally, Home Office, Lapeer, Michigan.

### Home Canning Now A Science

Science has reduced the failures in home canning, although the process is only a little more than a century in age. Greater appreciation of home canned vegetables has resulted.

For homemakers who want to be sure of their methods in home canning, home economists of Michigan State College recommend certain general rules.

First of all, be sure vegetables are fresh. Materials lose flavor and quality when they are held over for any length of time. Good quality vegetables are essential, because a bit of decay can be responsible for spoiling an entire batch.

Precook vegetables and have them hot when they go into the cans or jars. Precooking shortens the time of processing, and also saves the bother of "exhausting" the cans to get out the air before sealing them.

Fill only as many jars or cans as equipment permits processing at one time. If the cans of warm vegetables are allowed to stand long before processing, the bacteria in them will multiply very rapidly.

Use a steam pressure canner for peas, corn, snap beans, lima beans and all non-acid vegetables. The only way to be sure of killing all the bacteria in these vegetables is to raise the temperature to 240° to 250° F.

Be sure to label each can or jar and to keep complete records of each batch—the kind of food, the date canned, and the method of processing. Then if anything goes wrong, you can trace back and find the cause of spoilage. Use a timetable and exact directions to escape errors and failures.

## The people of Grayling and Crawford County have a duty to perform at the Primary September 10th.

Senator Miles M. Callaghan, candidate for re-nomination to the State Senate, has performed an outstanding service for the people of Grayling and the County. His master service, of course, is his great work for the Grayling Winter Sports Park now assured of completion, a \$500,000.00 project that will make Grayling the greatest winter sports town in Michigan, if not the United States.

Senator Callaghan's work for our tourist and resort interests, conservation and the help to the great North Country cannot be overestimated.

The people of Grayling and Crawford County should not forget their duty and the debt they owe him at the Primary September 10th.

**Public Utilities**

**Municipally Owned Electric Light and Power Supply**

Article 1.

An Ordinance to Regulate the Sale and Distribution of Electricity in the City of Grayling.

The City of Grayling Ordains:

**Sec. 1. General.**

Every consumer of electricity, every owner, occupant, or person in possession, charge or control of any building, structure or premises having service from or through the Grayling Electric supply system shall be governed by and be subject to the provisions of the ordinance and also such other rules and regulations governing or concerning the use

of electricity as may from time to time be adopted and approved by the City of Grayling.

**Sec. 2. Terms and Definitions.**

**Service.** A service is the conductors and equipment for delivering electrical energy from the main or feeder or from the transformer to the wiring system of a building.

**Service Drop.** That portion of the overhead service conductors between the pole and the first point of attachment to the building. This portion of the service shall be furnished by the city.

**Superintendent of Electrical Supply.** Shall be the City Manager or such person as designed by him.

**Premises.** Premises shall mean any single or multiple dwelling, office, store, building, etc., together with the land connected with it, and all outbuildings.

**Wiring.** Shall be defined as set forth in the rules and regulations of Chapter 1 of the National Electrical Code.

**Distribution System.** Distribution system shall mean all wires, conduct, poles, transformers, and so forth, for the distribution of electrical energy, except service drops.

**Meter.** Meter shall mean the device used for measuring the amount of electrical energy passing through the service.

**Service Switch.** Service switch shall be the device used for disconnecting the entrance conductors from the building wiring.

**City Owned Portion.** Shall be the service drop and the meter base.

**Customers' or Consumers' Portion of the Service.** Is that part of the service from and including the weatherhead, and the building wiring, except the meter base and metering equipment.

**Department.** Department shall mean the Department of Electric Light and Power of the City of Grayling.

**Owner.** The owner shall mean any person, firm or corporation owning any premises supplied or to be supplied with electrical energy from the Grayling Municipal Electric System.

**Meter Socket.** Meter socket shall refer to a base designed and furnished and owned by the Department for the installation of a meter.

**Sec. 3. Application for Service.**

When the installation of electric service is desired from the Grayling Municipal Electric Light and Power System for any building, structure or premises and before any service drop connection is made with the distribution system, and application shall first be made in writing at the City Office, such application shall set forth the name and street address of the person, firm or corporation desiring service and the type of service desired. It shall also set forth the kind of building for which service is intended and the applicant shall be required to answer truthfully all questions regarding such application which may be put to him by any officer or employee of the Department of Electrical Light and Power.

**Sec. 4. Installation of Service.**

1-4-1—No person shall make any attachment or connection with the distribution system of the Department of Electric Light and Power or make any repairs, additions to or alterations of any fixtures connected with the system unless such connection, repairs, additions, extensions or al-

terations are in accord with the National Electrical Code, and with any additional rules and regulations regulating the installation of electrical wiring which the Council may from time to time adopt. The City of Grayling reserves the right to refuse service on the proof of disregard of such safety regulations.

1-4-2—All work performed in making additions, connections, repairs, extensions or alterations of any fixtures connected with the service shall be subject to inspection by the City Manager or his representatives who have authority, hereby granted, to order any part of such work disconnected or changed in order that the same shall comply with the rules and regulations of the Department.

1-4-3—There shall be placed in all service entrances, a switch which shall form a disconnecting means in accordance with the National Electrical Code.

1-4-4—All services heads shall be placed 12 feet above the ground unless special permission is granted by the Service Manager.

1-4-5—Each and every single house must have a separate service connection with the street main except where there are two buildings on the same lot, one in the rear of the other. Service wire location shall be determined by the Service Manager.

1-4-6—The cost of installing service wires shall be borne by the City, within the City limits, outside the City limits extensions will be made on a basis of cost determined by the City Manager.

1-4-7—All right, title and ownership to the street portion of the service including the service wires shall be vested in the City of Grayling.

**Section 5. Meters.**

1-5-1—All energy used shall pass through a meter furnished by the City, except special cases in which a time clock is used or special arrangements have been made.

1-5-2—All meters shall be located between 5 and 7 feet off the ground and in a place as remote as possible from mechanical damage. Meters will be allowed inside commercial buildings only with permission of the Service Department.

1-5-3—The consumer shall be responsible for the protection of his meter from mechanical damage.

1-5-4—Damaged meters shall be immediately reported to the City Office.

1-5-5—All persons are forbidden to interfere with or remove a light or power meter from any service connection.

1-5-6—No person shall break, remove or tamper with or shall cause or suffer to be broken, removed or tampered with any seal which is placed on any meter by an employee of the Light and Power Department.

1-5-7—No person shall place or cause or suffer to be placed any device which shall serve to allow any electrical energy to be used which does not pass through the meter.

1-5-8—The department may require that all persons not the owners of property on which service is desired execute an application for service jointly with the owner of the premises, binding both parties jointly and severally to the payment of all rates and charges imposed by this ordinance or by resolution of the Council, or by resolution of the Department may require that all persons not the owner of property upon which service is desired place on deposit such sums as the Council may designate by resolution, before service is rendered to such persons. Such sums shall be returned to the party or parties making the deposit upon return of the meter in good condition and upon the payment in full of all rates and charges imposed by this ordinance or by resolution of the Council, and interest at the rate of 2% per annum shall be added to such sums provided they have remained upon deposit for one year or more. The Department of Electric Light and Power shall have the right to use such portion of that sum to repair any meter damaged by reason of the use thereof, excepting where inherent defects in such meters and to pay any unpaid rates or charges for which the consumer may be liable, and the person or persons making the deposit shall be required to pay such additional sums as shall be necessary to have on deposit at all times the sum required by the Council.

1-5-9—All right, title, and ownership of the meter and meter

equipment shall be vested in the City of Grayling.

1-5-10—It shall be the duty of the Department of Electric Light and Power to read all meters in the City periodically as directed by the Council, and thereupon the said department shall render a statement as soon as possible for the amount due as shown by the reading. Statements shall be payable as determined by the Council, but in no event shall failure to receive a statement excuse any consumer for non-payment thereof.

1-5-11—All repairs to the City's portion of the service shall be made only by employees of the Department of Electric Light and Power, under the supervision of the Manager. The cost of such repairs will be borne by the Department of Light and Power.

**Sec. 6. Access to Property.**

1-6-1—The officers of the Department and any other person delegated or authorized by the Manager of the Electric Light and Power supply shall have free entry and access to every part of any building, structure or premises at any reasonable hour, whenever such entry and access is deemed necessary or advisable for the purpose of inspecting the electric wiring and fixtures connected with the Electric Light and Power System. In case any person in charge or control of any such building, structure or premises into which any officer or properly authorized person shall desire entry or access shall refuse to permit such entry or access or shall do or cause to be done any act or thing for the purpose of preventing such entry or access, the Manager of Electric Light and Power supply may turn off the service from said building, structure or premises until notice shall have been given the Manager, in writing, that entry or access will be permitted or provided and until such entry and access have been accomplished.

The Manager shall have the power and authority to inspect the wiring and fixtures connected with the Electric Light and Power Supply System and shall have the power and authority to require any wiring or fixtures to be replaced, removed or changed when the same are defective.

**Sec. 7. Shutting Off Electric Service.**

1-7-1—Any consumer may notify the Manager of the Electric Light and Power Supply by one day's prior notice either in writing or by telephoning the City Office that service is no longer desired, in which case the Manager shall cause the meter to be removed from the premises. When it is desired to re-install service by the same consumer the reconnection fee as established by the City Council shall be paid by the consumer.

1-7-2—When the Electric Light and Power supply to any building, structure or premises shall have been shut off or stopped by or under the direction of the Manager, or in accordance with the provisions of this ordinance, the Electric Service shall not again be supplied to such building, structure, or premises or permitted to be turned on thereon, or thereto, unless a permit is first issued for that purpose by the Manager. The Manager in no case shall permit the electric service to be supplied to such building, structure or premises until all fees and reconnection charges shall have been paid to the Department of Electric Light and Power.

**Section 8. Rates.**

1-8-1—The Electric Light and Power rates, or charges for electricity consumed, the discount for prompt payment of bills, the penalty for non-payment, the fees for reconnection or service, the amount of consumers' deposits, and the manner of making payment shall be established by resolution of the City Council.

1-8-2—Prior to the preparation of the annual city tax roll, the Manager of the Electric Light and Power Supply shall certify to the Council any rates or charges imposed by or pursuant to this ordinance or by subsequent resolution of the Council which remain unpaid and are not fully covered by deposits. The Council may by resolution direct the proper officials to spread these amounts against the real property on which the service was rendered and the same amounts so spread shall become a lien of the lien created by the State and County and City taxes until paid.

**Sec. 9. Services Outside the City.**

1-9-1—Service will be supplied to consumers outside the corporate limits of the City of Grayling only after execution of an agreement between the consumer and the City of Grayling, which agreement shall be executed in the manner directed by the Manager.

**Sec. 10. Refusal of Service.**

1-10-1—The City reserves the right to refuse service to any consumer that has equipment that will cause undue burdens upon the City's equipment or lines, or shall cause radio interference to other consumers. For such offense service may be disconnected.

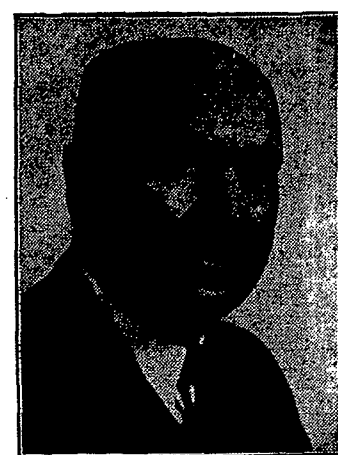

**Section 11. Penalties.**

1-11-1—Any violation or failure to comply with the provisions of this ordinance, the penalty for which is not otherwise provided herein, shall be punished by a fine not to exceed \$100.00 or by imprisonment not to exceed 90 days, or by both such fine and imprisonment in the discretion of a court of competent jurisdiction, and when such fine is imposed, the court may provide that in default of the payment of the fine, the offender shall be imprisoned.

**Section 12. Severing Clause.**

1-12-1—If any section, subsection, sentence, clause or phrase, of this ordinance if for any reason

## FOR BEST MICHIGAN STATE GOVERNMENT Best Officers Are Necessary

Elton R. Eaton

We have known Mr. Eaton for many years, and can vouch for his absolute honesty, faithfulness, and dependability in all he undertakes, in either civic, business, or political affairs, and know that he will acquire himself honorably. He has always been an ardent champion of justice and economy in state government, free from graft and boss control, and demanding aid for the aged and unfortunate. He is the militant editor of the Plymouth Mail, the progressive weekly newspaper of Plymouth, Michigan, and he has gained the reputation as the unceasing fighter for all that is good in state government. We, as fellow publishers in other parts of the state are glad to endorse his candidacy and pray for his nomination.

NOMINATE

**ELTON R. EATON**

LIEUTENANT GOVERNOR

On the Republican Ticket

He has held many positions of responsibility and trust in the past and he is honored and respected by all his official, business and social acquaintances. He has held many local public offices, was three terms sheriff of Kalamazoo county, and was personal secretary to Ex-Gov. Alex J. Groesbeck while governor, and he is at present a State Legislator from Plymouth (Wayne Co.) of several years experience, giving him definite qualifications for the office.

### DR. EUGENE C. KEYES FOR LT. GOVERNOR

"I believe in humanitarianism in government, but not one cent of tax money for chiselers and loafers." This is one of the resounding keynotes of Dr. Eugene C. Keyes, in his hard-hitting campaign for the office of Lieutenant Governor.

tenant Governor. This keynote is not a mere vote-catching appeal to be entirely forgotten after the November election.

Born and raised on a farm, Eugene Keyes did not let the fact that his parents were financially unable to send him to school deter him in his earnest desire for an education. He earned his own way through college by working on a farm and in factories. Not content to hold merely one collegiate degree, Dr. Keyes has educated himself and gained degrees in medicine and dentistry, and is a member of the State Bar of Michigan. Elected to the City Council of that great industrial metropolis, the City of Dearborn, he has made an enviable record as champion of honesty and efficiency in municipal affairs, and a true defender of the rights of the ordinary man. As a member of that body, he has refused to be swayed from his high purpose in sponsoring progressive and practical legislation. He has consistently fought the professional politician in Dearborn's city government.

**Section 8. Rates.**

1-8-1—The Electric Light and Power rates, or charges for electricity consumed, the discount for prompt payment of bills, the penalty for non-payment, the fees for reconnection or service, the amount of consumers' deposits, and the manner of making payment shall be established by resolution of the City Council.

1-8-2—Prior to the preparation of the annual city tax roll, the Manager of the Electric Light and Power Supply shall certify to the Council any rates or charges imposed by or pursuant to this ordinance or by subsequent resolution of the Council which remain unpaid and are not fully covered by deposits. The Council may by resolution direct the proper officials to spread these amounts against the real property on which the service was rendered and the same amounts so spread shall become a lien of the lien created by the State and County and City taxes until paid.

**Sec. 9. Services Outside the City.**

1-9-1—Service will be supplied to consumers outside the corporate limits of the City of Grayling only after execution of an agreement between the consumer and the City of Grayling, which agreement shall be executed in the manner directed by the Manager.

**Sec. 10. Refusal of Service.**

1-10-1—The City reserves the right to refuse service to any consumer that has equipment that will cause undue burdens upon the City's equipment or lines, or shall cause radio interference to other consumers. For such offense service may be disconnected.

**Section 11. Penalties.**

1-11-1—Any violation or failure to comply with the provisions of this ordinance, the penalty for which is not otherwise provided herein, shall be punished by a fine not to exceed \$100.00 or by imprisonment not to exceed 90 days, or by both such fine and imprisonment in the discretion of a court of competent jurisdiction, and when such fine is imposed, the court may provide that in default of the payment of the fine, the offender shall be imprisoned.

**Section 12. Severing Clause.**

1-12-1—If any section, subsection, sentence, clause or phrase, of this ordinance if for any reason

held unconstitutional or invalid, the remaining portion of this ordinance shall be and remain a valid ordinance in the same manner as if such unconstitutional or invalid portion were omitted at the time of its enactment.

**Section 13. Date of Effect.**

1-13-1—This ordinance shall take effect the 16th day of September, 1940.

Passed and ordained this 15th day of August, A. D. 1940.

Signed, Geo. A. Granger, City Clerk.

Signed, Geo. Burke, Mayor.

Moved by Milnes, supported by Burke, that the following men be and are hereby appointed to act as members of the Election Board on Primary Election, September 10, 1940:

Paul Ziebell

Carl Jensen

Wilfred Laurant

Lloyd Jennings

Ed Carlson, alternate.

Passed by majority vote.

Moved and supported that the meeting be adjourned. Motion carried.
